

Mohammad Ebrahim Darabi

AI ENGINEER

✉ ebid.py@gmail.com ☎ +98 919 090 5178 📍 @ebidotpy

Skills

Programming: Python, SQL

Frameworks: Pytorch, Tensorflow, SKLearn

Data Processing: Numpy, Pandas, Matplotlib

NLP: Transformers, Sentiment Analysis, Text Summarization, Question Answering, Text Generation, Translation, Spacy, RAG Based Systems, Agentic AI

MLOPs: Git, Github, Docker, Linux

Deployment: FastAPI

DataBases: ElasticSearch, Vector Database, Postgresql, Redis

Experience

● Arman Hoosh Sharif

Generative AI Engineer

- Design and Implement End to End Agents and Chatbots.
- python, LangChain, Langgraph, FastAPI, FAISS.
- Create Agents and Chatbots using open source and closed source LLMs.
- Help to create reliable and accurate Agents for companies' customers.

April 2025 - August 2025

● Houshyar 24

Generative AI Engineer

- Design and Implement End to End Agents and Chatbots.
- Python, PyTorch, LangChain, Langgraph, FastAPI, Elasticsearch, Low-code No-code frameworks, Unsloth.
- Create Agents and Chatbots using open source and closed source LLMs.
- Help to create reliable and accurate Agents for various use cases.
- Create and make ready datasets, and Fine-tune LLMs and Train Bert models using them

August 2025 - Jun2026

Languages

- English (advance)

Education

● Sahand University of Technology

- Bachelor of Mechanical Engineering
